The improved Tourist Office

The tourist office in Malaga airport, under the Ministry of Tourism, Trade and Sport, will be in service tomorrow after making a series of reforms with the aim of improving care for travelers who require information about Andalusia on arrival at destination.

For this facility, located in the arrivals area of Terminal 3 of Malaga airport, there have been various actions that increase their visibility and adapt the space of 40 square meters for an airy, open design to customers.

They used two locations about 20 square meters, eliminating the division between the two and removing the side wall was in the area closest to the area to travelers entering after collecting their luggage at the terminal.
